

Product Data Sheet

1075TW-N

Press-fit recessed mount magnetic contact with terminals

Press-Fit contact

Sentrol's 1075T series press fit switch is an 11 mm diameter magnetic contact with wire leads. Use no glue or screws to mount; small ribs on the housing hold the contact in place. The heavy-duty housing is resist against crushing from swelling wood. Wide gap versions are available for applications that may be prone to false alarms caused by loose fitting doors. Use indoors or outdoors for an attractive recessed installation.

Applications

Can be used for recessed applications, either indoor or outdoor.

Durability and dependability

The Sentrol high performance magnetic contacts have been designed to facilitate installation and ensure durability and dependability. Most are conservatively rated at 10,000,000 cycles, guaranteeing a long life. Every reed connection is hand soldered and each magnetic contact is tested before they leave the factory, 100% of the time.

Standard Features

- Drastically reduces installation time
- Provides consistent connection
- Easy to install, no soldering
- Terminals accept 0,3 - 2 mm² wires

High quality components and materials

Reed legs are plated with rhodium or ruthenium, and hermetically sealed in dry nitrogen. This offers superior protection against sticking and provides a moisture free environment therefore preventing corrosion.

Terminals

The 1075T series magnetic contacts contains terminals that allows to reduce the installation time drastically.

1075TW-N

Press-fit recessed mount magnetic contact with terminals

Specifications

Gap distance (max)	29 mm
Connections	Screw terminals
Contact	NC
Supervised loop	No
Dimensions (Ø x L)	
Contact	Ø 9 x 41 mm
Magnet	Ø 9 x 33 mm
Color	White

Ordering Information

Part No.	Description
1075TW-N	Press-fit recessed mount magnetic contact with terminals, wide gap, white
